- Zhang, Z.-W. 184, 191

Subject index

Volume 184 (1996)

Accumulation; Radocaesium; Fungi; Long term behaviour
184, 163

Acid deposition; Aluminium; Spodic horizons; Vosges mountains
184, 211

Acid mine discharge; Mining; Hungary; Heavy metal contamination; Waste material; Tailing dump
184, 215

Aluminium; Acid deposition; Spodic horizons; Vosges mountains
184, 211

Asia; Cadmium; China; Japan; Korea; Rice
184, 191

Bio-accumulation; Mercury species; Mussels; Bio-indicators
184, 173

Bio-indicators; Mercury species; Mussels; Bio-accumulation
184, 173

Bioethics; Environmental epidemiology; Georgetown paradigm; Principlism
184, 113

Biomonitoring; *Populus nigra 'Italica'*; Heavy metal pollution; Bulgaria
184, 197

Biomonitoring; Chemical exposure; Considerations, legal and ethical
184, 45

Biosphere health; Environmental epidemiology; Human ecologies; Sustainable development; Code of ethics
184, 51

Blood lead; Hair lead; Leaded/unleaded gasoline; Tarragona Province
184, 203

Bulgaria; *Populus nigra 'Italica'*; Heavy metal pollution; Biomonitoring
184, 197

Cadmium; Asia; China; Japan; Korea; Rice
184, 191

***Calluna vulgaris*;** Nitrogen accumulation; Podzol; Moorland; Deposition
184, 229

Cancer registration; Environmental epidemiology; Data protection
184, 33

Carcinogen identification; Environmental epidemiology; Risk assessment; Ethical issues/behavior
184, 91

Causal inference; Environmental epidemiology; Human health; Moral principles; Data evaluation
184, 97

Cereals; Selenium; Legumes; Dry fruits; Daily dietary intake; Influence of human and industrial activities
184, 183

Chemical exposure; Biomonitoring; Considerations, legal and ethical
184, 45

China; Asia; Cadmium; Japan; Korea; Rice
184, 191

Code of ethics; Environmental epidemiology; Human ecologies; Sustainable development; Biosphere health
184, 51

Code of ethics; Environmental epidemiology; Psychological studies
184, 17

Codes of ethics; Environmental epidemiology; Ethnic guidelines
184, 13

Considerations, legal and ethical; Biomonitoring; Chemical exposure
184, 45

Crustaceans; Organic mercury; Total mercury; Ligurian Sea; Trophic levels
184, 149

Daily dietary intake; Selenium; Cereals; Legumes; Dry fruits; Influence of human and industrial activities
184, 183

Data disclosure; Environmental epidemiology; Public health practice; Ethical challenges; Whistle-blowing
184, 109

Data evaluation; Environmental epidemiology; Causal inference; Human health; Moral principles
184, 97

Data protection; Environmental epidemiology; Cancer registration
184, 33

- Data protection;** Environmental epidemiology; Ethical standards 184, 25
- Deposition;** Nitrogen accumulation; Podzol; *Calluna vulgaris*; Moorland 184, 229
- Dry fruits;** Selenium; Cereals; Legumes; Daily dietary intake; Influence of human and industrial activities 184, 183
- Ecosystem integrity;** Human health; Environmental equity; Environmental epidemiology; Ethics in science 184, 57
- Environmental epidemiology;** Bioethics; Georgetown paradigm; Principlism 184, 113
- Environmental epidemiology;** Cancer registration; Data protection 184, 33
- Environmental epidemiology;** Causal inference; Human health; Moral principles; Data evaluation 184, 97
- Environmental epidemiology;** Code of ethics; Psychological studies 184, 17
- Environmental epidemiology;** Codes of ethics; Ethnic guidelines 184, 13
- Environmental epidemiology;** Data protection; Ethical standards 184, 25
- Environmental epidemiology;** Ethical conflict; Litigation; Two-dimensional model 184, 123
- Environmental epidemiology;** Ethics survey; International Society for Environmental Epidemiology; Global Environmental Epidemiology Network; Italian Epidemiological Association 184, 5
- Environmental epidemiology;** Genetic screening; Ethical implications 184, 37
- Environmental epidemiology;** Human ecologies; Sustainable development; Biosphere health; Code of ethics 184, 51
- Environmental epidemiology;** Human health; Environmental equity; Ecosystem integrity; Ethics in science 184, 57
- Environmental epidemiology;** Informed consent; Ethical problems; Socio-political transformation; Europe, central and eastern 184, 77
- Environmental epidemiology;** Microwave (RF) exposure; Ethical issues; Patients, science and employees, interests of; Occupational health 184, 83
- Environmental epidemiology;** Public health practice; Ethical challenges; Data disclosure; Whistle-blowing 184, 109
- Environmental epidemiology;** Risk assessment; Carcinogen identification; Ethical issues/behavior 184, 91
- Environmental epidemiology;** Scientific uncertainty; Health hazards; Public, communicating research findings to; Ethics guidelines 184, 103
- Environmental epidemiology;** Social justice; Public health; Ethical guidelines; Environmental justice 184, 67
- Environmental equity;** Human health; Ecosystem integrity; Environmental epidemiology; Ethics in science 184, 57
- Environmental justice;** Environmental epidemiology; Social justice; Public health; Ethical guidelines 184, 67
- Ethical challenges;** Environmental epidemiology; Public health practice; Data disclosure; Whistle-blowing 184, 109
- Ethical conflict;** Environmental epidemiology; Litigation; Two-dimensional model 184, 123
- Ethical guidelines;** Environmental epidemiology; Social justice; Public health; Environmental justice 184, 67
- Ethical implications;** Environmental epidemiology; Genetic screening 184, 37
- Ethical issues;** Environmental epidemiology; Microwave (RF) exposure; Patients, science and employees, interests of; Occupational health 184, 83
- Ethical issues/behavior;** Environmental epidemiology; Risk assessment; Carcinogen identification 184, 91
- Ethical problems;** Environmental epidemiology; Informed consent; Socio-political transformation; Europe, central and eastern 184, 77
- Ethical standards;** Environmental epidemiology; Data protection 184, 25
- Ethics guidelines;** Environmental epidemiology; Scientific uncertainty; Health hazards; Public, communicating research findings to 184, 103
- Ethics guidelines;** Personal ethics; Professional development; Professional accountability; Moral philosophy 184, 137
- Ethics in science;** Human health; Environmental equity; Ecosystem integrity; Environmental epidemiology 184, 57
- Ethics survey;** Environmental epidemiology; International Society for Environmental Epidemiology; Global Environmental Epidemiology Network; Italian Epidemiological Association 184, 5

Ethnic guidelines; Environmental epidemiology; Codes of ethics 184, 13

Europe, central and eastern; Environmental epidemiology; Informed consent; Ethical problems; Socio-political transformation 184, 77

Fungi; Radocaesium; Accumulation; Long term behaviour 184, 163

Genetic screening; Environmental epidemiology; Ethical implications 184, 37

Georgetown paradigm; Environmental epidemiology; Bioethics; Principlism 184, 113

Global Environmental Epidemiology Network; Environmental epidemiology; Ethics survey; International Society for Environmental Epidemiology; Italian Epidemiological Association 184, 5

Hair lead; Blood lead; Leaded/unleaded gasoline; Tarragona Province 184, 203

Health hazards; Environmental epidemiology; Scientific uncertainty; Public, communicating research findings to; Ethics guidelines 184, 103

Heavy metal contamination; Mining; Hungary; Waste material; Tailing dump; Acid mine discharge 184, 215

Heavy metal pollution; *Populus nigra 'Italica'*; Biomonitoring; Bulgaria 184, 197

Human ecologies; Environmental epidemiology; Sustainable development; Biosphere health; Code of ethics 184, 51

Human health; Environmental epidemiology; Causal inference; Moral principles; Data evaluation 184, 97

Human health; Environmental equity; Ecosystem integrity; Environmental epidemiology; Ethics in science 184, 57

Hungary; Mining; Heavy metal contamination; Waste material; Tailing dump; Acid mine discharge 184, 215

Influence of human and industrial activities; Selenium; Cereals; Legumes; Dry fruits; Daily dietary intake 184, 183

Informed consent; Environmental epidemiology; Ethical problems; Socio-political transformation; Europe, central and eastern 184, 77

International Society for Environmental Epidemiology; Environmental epidemiology; Ethics survey; Global Environmental Epidemiology Network; Italian Epidemiological Association 184, 5

Italian Epidemiological Association; Environmental epidemiology; Ethics survey; International Society for Environmental Epidemiology; Global Environmental Epidemiology Network 184, 5

Japan; Asia; Cadmium; China; Korea; Rice 184, 191

Korea; Asia; Cadmium; China; Japan; Rice 184, 191

Leaded/unleaded gasoline; Blood lead; Hair lead; Tarragona Province 184, 203

Legumes; Selenium; Cereals; Dry fruits; Daily dietary intake; Influence of human and industrial activities 184, 183

Ligurian Sea; Organic mercury; Total mercury; Crustaceans; Trophic levels 184, 149

Litigation; Environmental epidemiology; Ethical conflict; Two-dimensional model 184, 123

Long term behaviour; Radocaesium; Accumulation; Fungi 184, 163

Mercury species; Mussels; Bio-indicators; Bio-accumulation 184, 173

Microwave (RF) exposure; Environmental epidemiology; Ethical issues; Patients, science and employees, interests of; Occupational health 184, 83

Mining; Hungary; Heavy metal contamination; Waste material; Tailing dump; Acid mine discharge 184, 215

Moorland; Nitrogen accumulation; Podzol; *Calluna vulgaris*; Deposition 184, 229

Moral philosophy; Personal ethics; Ethics guidelines; Professional development; Professional accountability 184, 137

Moral principles; Environmental epidemiology; Causal inference; Human health; Data evaluation 184, 97

Mussels; Mercury species; Bio-indicators; Bio-accumulation 184, 173

Nitrogen accumulation; Podzol; *Calluna vulgaris*; Moorland; Deposition 184, 229

Occupational health; Environmental epidemiology; Microwave (RF) exposure; Ethical issues; Patients, science and employees, interests of 184, 83

Organic mercury; Total mercury; Ligurian Sea; Crustaceans; Trophic levels 184, 149

Patients, science and employees, interests of; Environmental

epidemiology; Microwave (RF) exposure; Ethical issues; Occupational health 184, 83

Personal ethics; Ethics guidelines; Professional development; Professional accountability; Moral philosophy 184, 137

Podzol; Nitrogen accumulation; *Calluna vulgaris*; Moorland; Deposition 184, 229

***Populus nigra 'Italica'*;** Heavy metal pollution; Biomonitoring; Bulgaria 184, 197

Principlism; Environmental epidemiology; Bioethics; Georgetown paradigm 184, 113

Professional accountability; Personal ethics; Ethics guidelines; Professional development; Moral philosophy 184, 137

Professional development; Personal ethics; Ethics guidelines; Professional accountability; Moral philosophy 184, 137

Psychological studies; Environmental epidemiology; Code of ethics 184, 17

Public health; Environmental epidemiology; Social justice; Ethical guidelines; Environmental justice 184, 67

Public health practice; Environmental epidemiology; Ethical challenges; Data disclosure; Whistle-blowing 184, 109

Public, communicating research findings to; Environmental epidemiology; Scientific uncertainty; Health hazards; Ethics guidelines 184, 103

Radocaesium; Accumulation; Fungi; Long term behaviour 184, 163

Rice; Asia; Cadmium; China; Japan; Korea 184, 191

Risk assessment; Environmental epidemiology; Carcinogen identification; Ethical issues/behavior 184, 91

Scientific uncertainty; Environmental epidemiology; Health hazards; Public, communicating research findings to; Ethics guidelines 184, 103

Selenium; Cereals; Legumes; Dry fruits; Daily dietary intake; Influence of human and industrial activities 184, 183

Social justice; Environmental epidemiology; Public health; Ethical guidelines; Environmental justice 184, 67

Socio-political transformation; Environmental epidemiology; Informed consent; Ethical problems; Europe, central and eastern 184, 77

Spodic horizons; Aluminium; Acid deposition; Vosges mountains 184, 211

Sustainable development; Environmental epidemiology; Human ecologies; Biosphere health; Code of ethics 184, 51

Tailing dump; Mining; Hungary; Heavy metal contamination; Waste material; Acid mine discharge 184, 215

Tarragona Province; Blood lead; Hair lead; Leaded/unleaded gasoline 184, 203

Total mercury; Organic mercury; Ligurian Sea; Crustaceans; Trophic levels 184, 149

Trophic levels; Organic mercury; Total mercury; Ligurian Sea; Crustaceans 184, 149

Two-dimensional model; Environmental epidemiology; Ethical conflict; Litigation 184, 123

Vosges mountains; Aluminium; Acid deposition; Spodic horizons 184, 211

Waste material; Mining; Hungary; Heavy metal contamination; Tailing dump; Acid mine discharge 184, 215

Whistle-blowing; Environmental epidemiology; Public health practice; Ethical challenges; Data disclosure 184, 109
